Black Matters Andrew Garrod, Robert Kilkeny, 2023-03-30 Black Matters presents an anthology of stories of African American and African undergraduate and graduate students' experiences at college, offering lifespan perspectives on their formative relationships and influences, life-changing events, and the role their heritage has played in shaping their personal identities, values, and choices. Andrew Garrod and Robert Kilkeny bring together contributors who share personal memoirs reflecting on their experience of navigating life on campus as students of Dartmouth College, New Hampshire. The ten brave authors, six Black men and four Black women, present thoughtful, often emotional, accounts of moments that transformed their academic, professional, and racial identities. Supplemented by follow-up accounts of four of the graduates, the text underlines developmental perspectives whilst examining what has remained the same about their lives and values, and what has changed over time. The collection explores the notion of hard work and grit in overcoming discrimination, racism, and adversity, and how in reality college students who are not part of the racial/cultural majority must contend with the normative identity challenges of late adolescence while carrying the extra burden of two-ness. Featuring an introduction by Chanté Mouton Kinyon, this anthology examines crucial topics including classroom experience; intellectual stimulation and learning environment; interactions with African American and African students; friendships that crossed the lines of race, ethnicity, class, gender, and sexual orientation, and how collegiate life affects issues related to personal and racial identities. The rich narratives in Black Matters provide vital insight into the relationship between collegiate experiences and racial identities. It will be essential reading for students and scholars of psychology, education, cultural anthropology, sociology and creative writing, as well as for those responsible for campus climate and student experience.

Robotics and Cognitive Approaches to Spatial Mapping Margaret E. Jefferies,Wai-Kiang Yeap,2008-01-10 This important work is an attempt to synthesize two areas that need to be treated in tandem. The book brings together the fields of robot spatial mapping and cognitive spatial mapping, which share some common core problems. One would expect some cross-fertilization of research between the two areas to have occurred, yet this has begun only recently. There are now signs that some synthesis is happening, so this work is a timely one for students and engineers in robotics.

L'America Joseph M. Orazi,2018-07-25 In the decades preceding WWII, hundreds of thousands of Italians flocked to our

shores in hopes of starting new lives in a land that promised freedom and opportunity. They immigrated through the Great Hall of Ellis Island, in the shadow of the Statue of Liberty, and spilled out into the streets of New York City and beyond in anticipation of a kind of renaissance. L.America follows the journey of three families who board the Santa Ana in 1915 through the ports of Palermo and Naples. For thirteen days, they share brutal passage in steerage. But the voyage is only the beginning of their trials. Eventually, they settle in New York City, Cleveland, and Monterey, California. Immigration in the early twentieth century was difficult at best. But assimilation proved an even greater challenge. The confused and frightened Italians in America is embodied in the lives of Giuseppe Mosca, Also Grimaldi, and Paolo Lachimia, as they make their way in a world in conflict with their heritage. In the first book, *Adagio con Fear*, they will endure the harsh reality of discrimination, World War, generational conflict, socialism, anarchism, facism, Carlo Tresca, and Sacco and Vanzetti. In the second book, *Adagio con Promise*, the story will continue as their descendants face the complexities of Mussolini, enemy alien labels, West Coast relocation, and even internment. In the end, however, this is not simply a story of survival. The children of the three families who made that voyage in 1915, though very different in experience and response, will return to us volumes of fortitude, character, and culture, ultimately establishing their place in the tapestry they once called L.America.

The Indian Diary of Vera Luboshinsky (1938-1945) Vera Luboshinsky,2024-03-13 The Indian Diary of Vera Luboshinsky narrates life at the Indian princely court of Bhopal, during the 1940s. Vera was the daughter of Professor M. J. Herzenstein, a member of the State Duma in pre-revolutionary Russia, and married to Count Mark Luboshinsky. After the Bolshevik revolution, they emigrated to Czechoslovakia where they met Hamidullah Khan, Nawab of Bhopal, an important political figure during the last decades of the British Empire and India's fight for independence. Impressed by Mark Luboshinsky's managerial abilities, the Nawab invited him to come to India to manage his estates. The couple spent seven years in India (winter 1938 - winter 1945). They stayed in and around Bhopal taking part in palace business or travelling across India accompanying the Nawab's family on long journeys. The Diary is a unique and completely unknown text to the Anglophone world: a rich primary source for historians of India's princely states, providing an interesting and uncommon depiction of the Nawab, his family, acquaintances, associates, and more generally, the life of Indians and foreigners in India during World War II. With literary flair, Vera describes not only her life in India, but also her intimate relationship with the Begum and British residents of Bhopal as well as meetings with well-known people like Jawaharlal Nehru, Sarojini Naidu, Fatima Jinnah, or Anandamayi Ma, and Paul Brunton. Importantly, the Diary also offers an extremely rare Eastern European female voice in late colonial India: a voice that both submits to and transgresses the Orientalist moods of its time.
