**Perfumes** Luca Turin, Tania Sanchez, 2010-08-06 'I've long wished perfumery to be taken seriously as an art, and for scent critics to be as fierce as opera critics, and for the wearers of certain fragrances to be hissed in public, while others are cheered. This year has brought *Perfumes: The Guide* by Luca Turin and Tania Sanchez, which I breathed in, rather than read, in one delighted gulp.' Hilary Mantel, *Guardian* *Perfumes: The Guide* is the culmination of Turin's lifelong obsession and rare scientific flair and Sanchez's stylish and devoted blogging about every scent that she's ever loved and loathed. Together they make a fine and utterly persuasive argument for the unrecognised craft of perfume-making. Perfume writing has certainly never been this honest, compelling or downright entertaining.

**Parfum (Le)** Annick Le Guérer, 2005-10-13 La parfumerie moderne s'est constituée à travers de lentes ruptures. Avec le sacré tout d'abord, avec la pharmacie et, plus près de nous, avec la nature. Le prêtre parfumeur a laissé la place au parfumeur apothicaire, médecin, gantier, couturier, artiste, chimiste et industriel. Avec l'avènement des molécules de synthèse, le parfum se dégage de ses liens avec les corps végétaux et animaux. Désincarné, il devient produit abstrait et objet marketing. C'est cette histoire que retrace ici Annick Le Guérer, de l'Antiquité à nos jours, en passant par l'âge d'or de Versailles, l'époque des Coty, Guerlain, Caron, Chanel ou encore Lanvin et Patou, jusqu'au triomphe des grands groupes lessiviers. Elle dresse aussi un bilan de la parfumerie aujourd'hui : face à la concentration industrielle et aux stratégies de la grande distribution, la parfumerie « de niche » et les nouveaux « indépendants » réussiront-ils à redonner sa richesse créative au parfum ? Bref, redeviendra-t-il objet de rêve ? Anthropologue, historienne et philosophe, Annick Le Guérer est

spécialiste de l'odorat, des odeurs et du parfum. Elle a notamment publié *Les Pouvoirs de l'odeur*.

*Alternative Medicine - New Insights* Cengiz Mordeniz, 2025-01-29 Modern medicine often treats individuals as standardized patients, categorizing them by defined diseases and creating lifelong dependency on medications. Side effects are managed by introducing additional medications, creating a never-ending cycle. Patients are not cured, but their symptoms are depressed as long as the drug is taken. For example, a simple headache is broken down into subgroups, each explained by different causes and mechanisms. However, some patients suffer for years, and their headaches are not eliminated. The same approach is applied to other pain conditions, as well as diseases like cancer, rheumatism, and others. A new idea emphasizes revisiting traditional methods and products to inspire new trials. To integrate these methods, more scientific studies and reliable data are needed. This book introduces innovative methods that combine traditional approaches with scientific insights, offering a personalized and holistic perspective for natural healing.
